Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

For the project **Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer**, the team used this template to generate, group and prioritize ideas for automating standard laptop orders on the ServiceNow platform, even while working remotely.
